FEDERAL BUREAU OF INVESTIGATION Washington, D. C. 20535

KOREAN ACTIVITIES IN THE UNITED STATES INTERNAL SECURITY - SOUTH KOREA

On September 23, 1975, WF T-1, who is in a position to know and who has furnished reliable information in the past, advised that the Korean Congress for Democracy and Unification (KCDU) with newly acquired office space at 1612 K Street, N. W., Room 506, Washington, D. C. (WDC), continues to be one of the most active anti-PARK Chung Hee, President of the Republic of South Korea, organizations in both the United States and Canada. Source noted that in Korea the KCDU would be referred to as the "Min Tong" or "Han Min Tong".

According to this source, the KCDU continues in its long established policy of being an organization primarily concerned with the restoration of democracy in South Korea. When this primary goal is achieved, the organization will then address itself to the issue of reunification with North Korea. It is a stated policy of the KCDU that reunification is to be considered only under democratic principles and under no conditions would reunification be considered if that reunification meant communist control or domination by the communist government of present day North Korea.

While this has been and continues to be the stated policy of the KCDU, the organization is constantly concerned that a strictly nationalistic trend may develop which would work for reunification under any circumstances, including possible domination by the North Korean Government. This, naturally, is the theme of reunification currently being advocated by the government of North Korea. According to this source, there is no such trend currently developing within the KCDU.

On August 22, 1975, WF T-2, who has furnished reliable information in the past, advised that during the weekend of August 16-17, 1975, the KCDU held its second annual national meeting in Chicago, Illinois. Approximately 40 individuals from throughout the United States and Canada gathered for this meeting.

One of the principal topics of discussion was the topic of the national headquarters location. One group desired to move that location from WDC to the West Coast, however, it was resolved by retaining the location in WDC. It was the consensus of opinion that the organization could more effectively operate out of WDC where it would have continual access to the administration, to Congressional leaders, and to the diplomatic community. It was also felt that demonstrations on behalf of those causes would be more effective in WDC. According to WF T-1 the following changes in the organizational make up occurred at the Chicage meeting in August, 1975.

WF T-1 advised that the KCDU has never advocated the use of violence in obtaining those stated goals. The source further advised that the KCDU has opened its doors to any one who is sympathetic to the organization's stated goals; however, every effort is made to discourage anyone who advocates the tactics of violence in achieving those goals. The source emphasized that he is not aware of any one currently affiliated with the KCDU to advocate violence as a policy of the organization or who personally holds those views (2)

WASHINGTON, D.C. 20510

Honorable Edward H. Levi Attorney General Department of Justice Washington, D. C. .20530

Dear Ed:

As a member of the Foreign Relations Committee, I am deeply concerned about press reports alleging that the Korean Central Intelligence Agency has harassed Korean residents in the United States, attempted to bribe Members of Congress, and systematically intervened in our domestic political affairs. I refer to Jack Anderson's column in the July 17, 1975 Washington Post (p. E19) and to the more extensive New York Times series on August 17, 19, 20 and 24, 1973. ...According to the Anderson article, the Korean Association of Chicago is one of many front groups through which the KCIA operates in this country.

I urge you to give high priority to the Justice Department investigation of these alleged activities, which I understand has begun. I am concerned, as I know you are, about the possible violation of our laws. I am also troubled because such activities would obviously tend to undermine public support in the United States for our Mutual Defense Treaty with the Republic of Korea, an agreement that has helped to keep the peace in Northeast Asia for the past 22 years.

It is obviously in the common interest of the United States and ROK governments that KCIA activities in this country be strictly confined to liaison in Washington with U.S. officials working on Korean affairs and that all KCIA officials not required to perform this limited function be sent home. I would hope that the ROK would do this voluntarily. Thus, I am also writing to Secretary Kissinger urging

views as forcefully as possible to the Korean Ambassador here in Washington and, through Ambassador Richard Sneider, to President Park in Seoul. I would hope that your investigation of the KCIA might reinforce any efforts by Secretary Kissinger to resolve this matter through diplomatic channels.

"The Dong-A Ilbo" is published daily in Seoul, The paper is forwarded to this office on a daily basis. The advertisements are replaced with local, Los Angeles, advertisements, local news stories are added, and this revised paper is distributed in the Los Angeles area on a daily basis. This bureau and the parent newspaper in Seoul, Korea, have a reputation of being opposed to Park Chung-hee, President of South Korea. On December 25, 1974, the South Korean Government ordered all private firms to stop placing advertisements in the Korean edition of this newspaper. The purpose for this ban was to force the newspaper to change its attitude toward President Park. Eventually, as a result of the financial loss, the newspaper had to knuckle under. During the period of the ban, a total of \$8,000 was donated by Los Angeles residents to help make up for the loss of advertising. The ban did not apply to the Los Angeles Bureau and they did not suffer any loss of advertising. There was some indication that Korean Airline (KAL) was concerned about their advertisement appearing in the Los Angeles paper during the period of the ban, but they did not cancel their advertisement.

Park Regime Denies Retaliating Against L.A. Man

The editor and publisher of a Korean language newspaper in Los Angeles says his editorial criticism of the Park Chung Hee regime has made his weekly the object of "subtle but brutal retailation" by South Korean agents and consular officials.

Kim Woon-Ha claimed he had been threatened personally and his small paper, The New Korca, had lost about \$10,000 in revenue in the last six months because of "pressures" on advertisers from consular sources.

South Korean Consul Gen. Park Young Friday denied the charges as a "vicious" and untrue.

At a press conference at his paper's offices, Kim and other spokesmen insisted strong-arm tactics have been used on other members of the large Korean community here to "muffle all criticism" of the South Korean government.

"There have been scattered incidents of people battered or beaten in a bar," said Sang Dal Cha, chairman of a group called the Southern California Citizens Congress to Restore Democracy in Korea. "And-

these people who use violence know they are protected by the consulate."

Kim charged that operatives of the Korean Central Intelligence Agency. "have brought pressures" on his advertisers, including Korean Air Lines which he said contracted last July torun 26 weeks of airline advertising in his paper and broke the contract a few weeks later.

Kim said the same tactics were used by the South Korean government "in silencing the last bastion of the free press there. . .the Dong-A' Ilbo which has a Los Angeles edition.

An advertising executive at KAL,

however, denied any pressures on the airline from consular officials.

"We are not governed by the government" he said. "This is a private, profit-making business and the consul office can't tell us what to do." He said KAL, on reevaluation of advertising effectiveness, decided there was "not much value" in the weekly paper and canceled the ads.

The consul general vehemently denied that any pressures were being channeled through his offices to stifle criticism. "We didn't come here to exert pressure or so forth," he said.

Cancellation of the Dinner Party for Senator Tunney Created Controversies

- Cancellation Was Made Just One Day Before the Dinner Party
- Reasons for the Cancellation of the Party Varied
- There Were Suspicions That "the Korean Consulate General in Los Angeles Was Involved in the Preparation of the Dinner Party for Senator Tunney"

Editor's Note

The fund-raising dinner party for U.S. Senator John V. Tunney (Democrat), sponsored by Korean residents, was suddenly cancelled on 9/11/75 just one day before the dinner party. The dinner party cancellation, made by Senator Tunney, has created a great deal of controversy.

The plan for the fund-raising dinner party, sponsored by the so-called "Friends of U.S. Senator John V. Tunney," had been in preparation since last March. One day prior to the dinner party to be held on 9/12/75 in the Ambassador Hotel's Venetian

Room in Los Angeles, California, it was suddenly cancelled unilaterally by Senator Tunney.

Unsavory Plan Hurt Prestige of the Nation (South Korea)

*

- \$100.00-per-Couple Dinner Party Was Planned -

*

YANG Hoi-jik (ph.), President of the Korean Association of Los Angeles (?), Miss Sonia Suk, and 50 other prominent Korean couples were scheduled to attend the dinner party, having paid \$50 per person. PARK Young, Korean Consul General in Los Angeles, also was to attend the dinner party.

"Hotel Cancelled the Dinner Party"

Ward Wardsman, who is in charge of finances for Senator Tunney's election campaign office, has revealed that the Ambassador Hotel cancelled the dinner party on account of the lack of preparation for it. He further said that on 9/11/75 the hotel notified Senator Tunney's election campaign office that the sponsor of the affair made such undue haste in preparing for the dinner party that the hotel had no choice but to cancel it.

The Ambassador Hotel's sales office said that the preparation for the dinner party was already completed. It was Senator Tunney's election campaign office that cancelled. it. The hotel further said that it had nothing to add to the statement made by the hotel.

"First Preparation Was Arranged by LEE Chun-yong (ph.)"

LEE Chun-yong, an insurance man and a Los Angeles City Commissioner, who had arranged the dinner party from the beginning, offered a different version of the dinner party cancellation.

He said that Senator Tunney's election campaign office notified him that Senator Tunney had to go to Washington, D.C., suddenly in order to attend (on 9/12/75) the Senate Committee to Investigate the U.S. Army's Experiments with Drugs of which Senator Tunney was the Chairman.

"Grave Violation of International Law"

KIM Chang-jun (ph.), President of the Korea-U.S. Political Association, called on the Dong-A Ilbo office in Los Angeles on the morning of the 12th of September and said that the Korean Consul General in Los Angeles had played an active role behind the scenes in preparation for the 9/12 dinner party.

He further said that Senator Tunney's election campaign office had cancelled the dinner party because of the Korean Consul General's involvement in its preparation.

It was a grave and unrectifiable disgrace for the Korean Government because of the unsavory activities of the Korean Consul General's office in Los Angeles.

President KIM said that it was a violation of international law that a foreign consulate had directly or indirectly been involved in a U.S. election campaign. He criticized the Korean Consulate in Los Angeles because it did not even/the ABC's of politics.

know-

He continued to say that it was a regrettable thing that the Korean Consul General in Los Angeles had made telephone calls during office hours to solicit Korean residents to attend the dinner party.

Ward Wardsman, saying that the cancellation was made by the hotel, announced that Senator Tunney's election campaign office has been conducting an investigation on whether or not the Korean CIA was involved in the preparation of the dinner party.

Mr. Wardsman further commented that so far, there was no single piece of evidence to prove such an allegation. Senator Tunney's election campaign office has received information from Korean residents and other various sources that the Korean CIA was involved in the party's preparation.

"Received Telephone Califs from the Korean Consulate General"

LEE Chun-yong admitted that he, in an individual capacity, had asked the Korean Consulate to give him a list of the Korean residents who might be interested in attending the dinner party, including the names of representatives of Korean business firms in the Los Angeles area.

LEE Chun-yong, however, strongly denied the fact that either the Korean CIA or the Korean Consulate in Los Angeles, was involved in the preparations for the dinner party.

He retorted that any Korean resident could make a request to the Korean Consulate for a list of Korean residents in the Los Angeles area.

He revealed his new plan for a party for Los Angeles City Mayor Tom Bradley (ph.) in December 1975. He said that, at that time, he would ask the Korean Consulate for the same kind of information.

Mr. KIM, an official with the Korean Consulate in Los Angeles, confirming LEE Chun-yong's request for the list of the Korean residents, strongly denied the accusation that he had made telephone solicitations to Korean residents to attend the dinner party.

As of 9:15 AM today, we were not able to obtain any comment from Consul General PARK Young due to his ill health.

Certain Korean residents, scheduled to attend the dinner party of their own will because of the Korean Consul General's solicitation, confirmed the report that they had received telephone calls from him.

On 9/11/75 at 9:45 AM, Senator Tunney's election campaign office notified the Korean Consul General of the cancellation of the dinner party. Mr. Wardsman said that the telephone call was a courtesy call to Consul General PARK Young.

The Korean residents who were scheduled to attend the dinner party and other Koreans said that the sudden cancellation of the dinner party was very rude. They further commented that there must be some specific reason for the cancellation beyond the published reason.

The Korean residents said with one voice that whether or not the Korean Consul General was involved in the party's preparation, the dinner party for the Senator from the State of California, the most populous state in the United States, was cancelled on account of the lack of preparation. It was a grave dishonor to the Korean residents and Korea.

MOUNTING AGGRAVATION TOWARDS OPPRESSION OF THE PRESS BY INVISIBLE FACES

Suppression of the Advertisers and the Paper's Expansion Activities in "The New Korea," Which Has Been Advocating Restoration of Democracy

 Directors of "The New Korea" Pressured by Korean Consul General and Consuls Who Are in Charge of Intelligence - Devil hands of the dictator who has been oppressing freedom of the press find no national boundaries.

The Dong-A Ilbo, advocating the protection of freedom of the press from last winter to this spring, has been suffering from pressures by the Korean Government. Such suppression, crossing the Pacific Ocean, has been directed towards "The New Korea."

"The New Korea" began to publish the reformation issue beginning September 5, 1975, raising the banner of the spreading of freedom and democracy and trying hard to restore democracy in Korea.

The Korean dictatorial regime has tried various sinister schemes - appeasement, bribery and threats - in order to change the paper's tenor. Seeing that such maneuvers were ineffective, the Korean Government, through the Korean Consulate and other organizations, has begun to craftily oppress "The New Korea."

So far, the Korean Government's oppression of "The New Korea" has been very cunning and treacherous. It is very hard to note evidence of the oppression. However, at present, an obvious method of oppression is being applied to the advertisers in the paper. The purpose of the oppression of the advertisers is to cut off income so that "The New Korea" will not be able to publish.

A representative case of this oppression was the recent cancellation of advertisement in "The New Korea" by the Los Angeles office of the Korean Airlines. Korean Airlines made an agreement with "The New Korea" to pay \$1,430.00 for 26 advertisements in the paper, including an announcement of the Seoul-Los Angeles roundtrip flight.

One day a man in charge of advertising, from Korean Airlines, visited "The New Korea" office and gave notification that Korean Airlines Headquarters in Seoul, Korea, had instructed the Los Angeles office to stop advertisement in "The New Korea." He begged "The New Korea" to understand the circumstances that the Los Angeles office was faced with.

The Los Angeles office of Korean Airlines, acknowledging the separation of business from politics, requested the Seoul main office for advertising in "The New Korea" which had been very popular among the Korean residents. The request was granted.

Korean Airlines said: "It is very difficult for us to explain the reason why we cancelled the advertisement in "The New Korea. We are very sorry for not giving an explanation for the cancellation. Everyone knows the reason for the cancellation of the advertisement."

Miss Sonia Suk, who made a one-year contract to advertise her real estate business in "The New Korea," said: "I have been molested by the people. I was warned not to advertise in 'The New Korea.'

"Please leave me alone so that I may be able to continue my business." She cancelled her advertisement contract with "The New Korea."

Besides Korean Airlines and Miss Sonia Suk, the cancellations of advertisements in "The New Korea" have been on the increase:

Our book-sale business, which was undertaken in order, to make up for the decrease in advertising income, has also been depressed.

"The New Korea" was selling the "Collection of the Speeches Delivered by KIM Dae-jung*" and "KIM Chi-ha's Long Poems**" through Korean grocery stores in the Los Angeles area.

A salesman with a Korean grocery store said that he had received a telephone call from the Korean Consulate, so it was very hard for the store to sell the books openly.

A Korean meat store was told, via a telephone call from the Korean Consulate, that the store should not sell the books. The meat store has returned them.

"The New Korea's" civic activities were also oppressed by the Korean Consulate which instructed the sponsor of the Korean Festival that "The New Korea" should not conduct the Beauty Contest of the Little Princess, one of the activities of the Korean Festival. "The New Korea" conducted the Beauty Contest two (2) times in the past.

Consul General PARK Young and several consuls in charge of intelligence, as the nucleus of the oppressive activities, put pressure on Korean residents who have business connections with Korea and support "The New Korea."

Consul General PARK Young, through members of the Executive Committee to Help "The New Korea" (organized to support the paper) who have some relations with the Korean Government, has been putting pressure on KIM Woon-ha, the publisher of "The New Korea," to change the tenor of the paper and to support the PARK Chung-hee Government.

KIM Se-myun (ph.), representative of the Siju (ph.) Trading Company, and Dr. KIM Hyung-il, a professor at

California State College, Long Beach Campus, were advised by Consul General PARK Young to appease KIM Woon-ha. The above-mentioned two persons were told to relinquish financial support for "The New Korea" and resign from their posts as Directors of "The New Korea."

The Executive Committee to Help "The New Korea" has been hampered in its activities to support the paper by the Korean Consul General's application of pressure and maneuverings of split tactics.

Newspaper columnists and members of the Editorial Department, who joined "The New Korea" when the first reformation issue was published, have been unable to write articles freely. Some who were bribed have been interrupting the regular conducting of business.

Consul General PARK Young has been maneuvering to isolate KIM Woon-ha, publisher and editor of "The New Korea," from Korean residents by saying that KIM Woon-ha was a communist who has been enjoying a good reputation among the democratic-minded and conscientious Korean residents.

According to information furnished by Rev. KWON Hoisang (ph.) and other noted Korean residents, Consul General PARK Young and his men openly told the pro-PARK Chung-hee Government people that KIM Woon-ha was a communist, using the word "red fellow" blatantly. However, when they referred to KIM Woon-ha in the general public of Korean society, KIM Woon-ha was described as a "rebellious element."

The rebuttals to the negotiation meetings, as proposed by Consul General PARK Young several times in the past, by KIM Woon-ha, publisher and editor of "The New Korea" have caused the oppression of the paper.

KIM Woon-ha has rejected the Korean Government's invitation to visit Korea and offer of a roundtrip airplane ticket. He has also rejected the negotiation meetings proposed by LEE Sung-chul, the Korean Government Cultural and Information Officer, and Consul General PARK Young.

A certain KIM, an elder at a Korean protestant church, who rendered great services to the Korean Government by turning many Korean Christians, scholars and student associations into the camp of the pro-PARK Chung-hee Government, called on KIM Woon-ha one day and proposed a negotiation meeting with Consul General PARK Young.

He warned that unless KIM Woon-ha listened to his advice, a wholesale attack against KIM Woon-ha would be launched, including a tactic to isolate KIM Woon-ha from the Korean residents.

Soon after the visit by KIM, a full-scale smear campaign against KIM Woon-ha was started, including the cancellation of advertisements in "The New Korea."

The oppression campaign against "The New Korea" was so subtle and cunning that not a single bit of evidence of the oppression has surfaced. Furthermore, the persons who furnished the information in the past were afraid of becoming witnesses.

Commenting on the Korean Government's oppression of "The New Korea," KIM Woon-ha said: "We should make headway steadfastly in order to liberate our fatherland and the Korean people from the shackles of dictatorship, to materialize God's justice and to enjoy freedom and truth.

"I take this opportunity," he continued to say,
"to express my gratitude to the advertisers, readers of 'The
New Korea' and the Korean residents who have been supporting
the paper in the face of insurmountable oppression.

"The Korean residents should solidify themselves and support 'The New Korea,' while the Korean newspapers at home have been oppressed and gagged, to show to the world that Koreans are wonderful people and cherish freedom, democracy and justice, in spite of the oppression of the press."

KIM Woon-ha, publisher and editor of "The New Korea," urged the Korean Government to immediately stop such illegal measures against "The New Korea."

He has also revealed a plan for a large-scale campaign to rectify the unreasonableness by appealing to the White House, the State Department and the Justice Department.

He has also appealed to patriotic Korean residents, who love their fatherland and the Korean brethren, to support "The New Korea" so that the paper will be able to continue publication.

In August, 1973, it was determined that an Associated Press (AP) article appeared in the June 10, 1973, issue of the St. Louis Post Dispatch entitled "U. S. Checking Report on Korean Agents." The article said that the United States is attempting to verify that agents of the KCIA interfered with at least two meetings of Koreans in this country, one of which was in St. Louis. The St. Louis incident was described as occurring in April, 1973, when members of the Association of Korean Christians met at Concordia Seminary of the Missouri Synod Lutheran Church. The meeting was to discuss, among other things, the arrest by the Korean CIA of a Korean Presbyterian pastor in Seoul, Korea(U)

Kim Dae Jung, a former Korean opposition presidential candidate, was scheduled to address the group. At one point during the meeting, the was called to receive a phone call. The call was an agent of the Korean CIA, and the call was interpreted as an effort to intimidate them. The other incident occurred in San Francisco when hecklers attempted to disrupt a meeting at which Jung spoke. When officers seized a heckler, a Korean diplomat intervened.

A spokesman for the Korean Embassy, Washington,

stated that the attempted telephone call mentioned above was

On 10/16/75, was orally briefed in the absence of Congressman Fraser in general terms concerning our previous investigation of allegations involving KCIA harassment. It is noted the oral briefing was felt necessary since this is a highly sensitive area involving investigative interest in the activities of a friendly foreign intelligence service.

Subsequently, a letter was received from Congressman Fraser dated 10/28/75 in which he inquired as to whether several diplomatic personnel assigned to the Korean Embassy, Washington, D. C., were affiliated with KCIA. Since this information could have a bearing on sensitive diplomatic relations existing between the governments of Korean and the United States, he was referred to the U. S. Department of State for an appropriate reply.

We are continuing to investigate allegations of harassment of Korean residents in the U. S. by KCIA. To date it has been determined that a majority of the allegations have been based on information appearing in Korean newspapers which are opposed to the present South Korean government.

South Korean intelligence agents are waging a campaing of harassment against Koreans living in the United States who oppose the Seoul government, a House subcommittee was fold yester

and ignored warnings from

their activities, according to
testimony by an American
university professor, a former State Department officer and a Korean language
newspaper editor.

Questioned by a reporter, a spokesman for the South Korean embassy attending the hearing before the Interpational Organizations subspending of the House Committee on International

Relations said he did not be lieve the allegations.

He said he had no knowledge of any KCIA harass, ment activities in the United States.

Kim Hyung II, president of a Korean residents association in Los Angeles, fold the subcommittee he knew of no cases of KCIA intimidations in his community.

However, Donald L. Ranard, who retired in 1974 after four years as director of the State Department Office of Korean Affairs, testified he asked the FBI to investigate KCIA agents, activities in 1973 but got few results.

"An investigation began but for reasons which I never equite understood, it never really got off the ground," Ranard said. "When it finally petered out several months later it had produced little more than mere confirmation of the basic information I had submitted initially

"Much seemed to be made of an explanation that to proceed properly, the FBI would need to talk directly to KCIA personnel at the Korean Embassy which obviously the State Department had no power to direct because of their diplomatic immunity," Ranard said.

But Ranard said he knew, based on U.S. intelligence reports, that the KCIA "has organized demonstrations in support, of the [President Park Chung Heel government, and at other times attempted to break up demonstrations against that government."

He offered to provide more specific testimony in closed session, which a sub-committee staff member said would probably be scheduled soon:

Kim Woon Ha, editor of New Korea, a Korean lankuage newspaper published in Los Angeles, said the

ACIA tried for months to close his paper of eid his criticism of the Park govern ment by pressuring businessmen to cancel advertisements, offering him money, tree tickets to Korea of a government job, and spreading rumors he was a Communist.

He said that when two staff members quit he could find no one willing to replace them and now puts out his newspaper with the help of his wife.

help of his wife.

A fourth witness before the sub committee, chaired by Rep. Donald M Fraser (D Minn.), was Prof. Gregory Henderson of Case Western Reserve University. Henderson, a Korean expert, called the KCIA A vast, shadowy world of an estimated 100,000 bureaucrats, intellectuals, agents and thugs, "and said he knew at least 18 agents were stationed in the United States.

Mr. Clarence M. Kelley, Director Federal Bureau of Investigation Washington, D.C.

Dear Mr. Kelley:

In connection with human rights problems in South Korea, the Subcommittee on International Organizations in U June 1975 began looking into possible illegal activities of the Korean Central Intelligence Agency (KCIA) in the United States, and on June 12 and August 25 I requested assistance from the Attorney General and yourself regarding charges raised in testimony received before my subcommittee.

It has come to my attention that in 1973 an FBI report on KCIA activities was prepared. Because of the subcommittee's interest and established line of inquiry, I request that the FBI make available a copy of that report. or access to the report, for the subcommittee staff. cluded in this request is access to other reports on this subject.

I hope this request will meet with your approval Please have your staff contact of the subcommittee staff regarding any questions or nece's, arrangements.

Your prompt consideration of this matter will be

On May 6, 1976, WF T-1, who has provided reliable information in the past, advised that the Korean Congress for Democracy and Unification (KCDU) is still very active in anti-Park Chung-hee, the President of South Korea, matters in the United States. The KCDU sponsored a demonstration against the Park government on April 18, 1976, at the DuPont Circle, in Washington, D.C. (WDC). WF T-1 advised that the KCDU feels that the Korean Central Intelligence Agency (KCIA) is keeping a close watch on it.
